| **Product** | CareSystem shower chair 410, manually height adjustable |
| **Item number** | R7165000 |
| **Cleaning** | Pressalit recommends that chalky deposits be removed from wall tracks and other aluminum parts using a solution of three parts of 30% acetic acid to seven parts tap water. When the aluminum parts have been washed down with this solution, the parts should be wiped over with a damp cloth wrung out in clear water. |
